

SIMONA

Simona always invents an excuse to get away
And maybe she already put her photo aside
Then she'll tell me that one will take my place
'Cause she doesn't want to see me anymore

Simona I wonder who keeps you company
And if you make him feel that you're only his
I'd like to study your union
To understand why it started bad between us

What did you take into your head?
You can't answer me
If you're going too fast please pull over
You exceeded the speed limit

Simona I thought you were a friend of mine
Or at least someone who hate lies
While I noticed something strange
You touch my shoulder and then hide your hand

Simona your name turns me on and it never switch off
It's as if you were between me and me
It doesn't pay to always hide what you have inside
'Cause you can hurt the one who loves you

What did you take into your head?
You can't answer me
If you're going too fast please pull over
You exceeded the speed limit

At the end of every story I think it was my fault
I madly enhance the love I feel
It's like a balloon rising and than blowing in the air
'Cause the situation slipped out of my control

What did I take into my head?
I can't answer me
If I fail I didn't mean to do it
It's difficult to improve oneself

What did I take into my head?
I can't answer me
If I fail I didn't mean to do it
It's difficult to improve oneself
